Candidate & Program Overview

Candidate Details

Student Name: AVIEK PRATAP SINGH
Roll Number: 25SCS1003001203
Degree: B.Tech (CSE)
Academic Batch: 2026-2027
University: IILM University

Internship Profile

Program Name: Artificial Intelligence Internship
Specialization Domain: Artificial Intelligence
Duration: 08/07/2026 - 08/08/2026
Project: AI Resume Screening & Job Recommendation
Organization: Codec Technologies Pvt. Ltd.

Organization Profile: Codec Technologies

Codec Technologies Pvt. Ltd. is a global platform focused on empowering learners and connecting diverse talent with meaningful career opportunities.

- Industry Exposure: Internship-based practical learning through project work and training tasks.
- Internship Focus: Artificial Intelligence, project development, and practical implementation.
- Program Format: 1-month internship conducted in hybrid mode across India.

AI RESUME SCREENING

Resume Match Score 87%

Skills Detected 14

Recommended Roles 5

Skills → Matching → Ranking → Recommendations

Problem Statement & Industry Context

The Problem

Recruiters may receive hundreds of resumes for a single role. Manual screening is time-consuming and can miss relevant candidates when resumes use different wording for similar skills.

An AI system can reduce screening effort by extracting skills, comparing candidate profiles with job requirements, and ranking suitable matches.

The Solution

Build an AI-powered resume screening and job recommendation system using NLP and machine-learning techniques.

The system preprocesses resume text, extracts relevant skills and experience, calculates job-candidate similarity, and recommends suitable roles with ranked match scores.

Core Project Objectives

01 Resume Parsing

Extract education, experience, skills, projects, and keywords from resume text.

02 Skill Extraction

Identify technical and professional skills using NLP and keyword/semantic matching.

03 Job Matching

Compare candidate profiles with job descriptions using vector similarity.

04 Recommendation

Rank suitable job roles and provide relevant recommendations.

Technologies & AI Toolchain

Suggested data sources: public resume/job-description datasets and manually curated role profiles.

AI Resume Screening System Architecture

- Data Layer: Resume documents and job descriptions with structured role metadata.
- Feature Engineering: Convert text into TF-IDF vectors / semantic representations and skill features.
- Recommendation Layer: Calculate similarity, apply ranking rules, and return top matching roles.

Internship Timeline (Weeks 1 to 4)

Recommendation Workflow

Key Project Work & Demonstrated Skills

✓	Data & Preprocessing	Prepared resume/job text, cleaned noisy content, normalized terminology, and created structured inputs.
✓	NLP & Feature Engineering	Applied tokenization, stop-word handling, keyword extraction, and TF-IDF/semantic features.
✓	Similarity & Ranking	Used cosine similarity and weighted matching to rank candidate-job compatibility.
✓	Recommendation Logic	Designed rules to combine skills, experience, education, and role requirements.
✓	Practical Outcome	Developed an end-to-end workflow from raw text input to explainable job recommendations.

INTERNSHIP OFFER LETTER

Dear Avlek partap Singh,

We are pleased to offer you a 1 Month Internship as Project Intern at Codec Technologies, a global platform dedicated to empowering learners and connecting diverse talent to create meaningful career opportunities worldwide. Codec Technologies delivers dedicated IT and business consultancy services across 27+ countries, empowering global innovation and strategic growth.

Internship Details:

- Designation : Artificial Intelligence Intern
- Location & Mode: Pan India, Hybrid
- Duration : 08/07/2026 to 08/08/2026
- Reporting to : Assigned Project Head(s)

This program provides an immersive experience, enabling you to gain industry-level knowledge and acquire valuable skills. Exceptional interns may also qualify for a scholarship award based on weekly performance reviews conducted by project supervisor.

If you accept this offer and the terms above, please complete your assigned projects and training tasks on our platform and via email.
Best regards,

Sincerely,
Dr. Anurag Shrivastava,
Codec Technologies India
